**FULLY PADDED FRAME**

Outside back, sides and front are padded to increase durability and provide more attractive tailoring.

**SLICK HOLLOW CONJUGATE FILL**

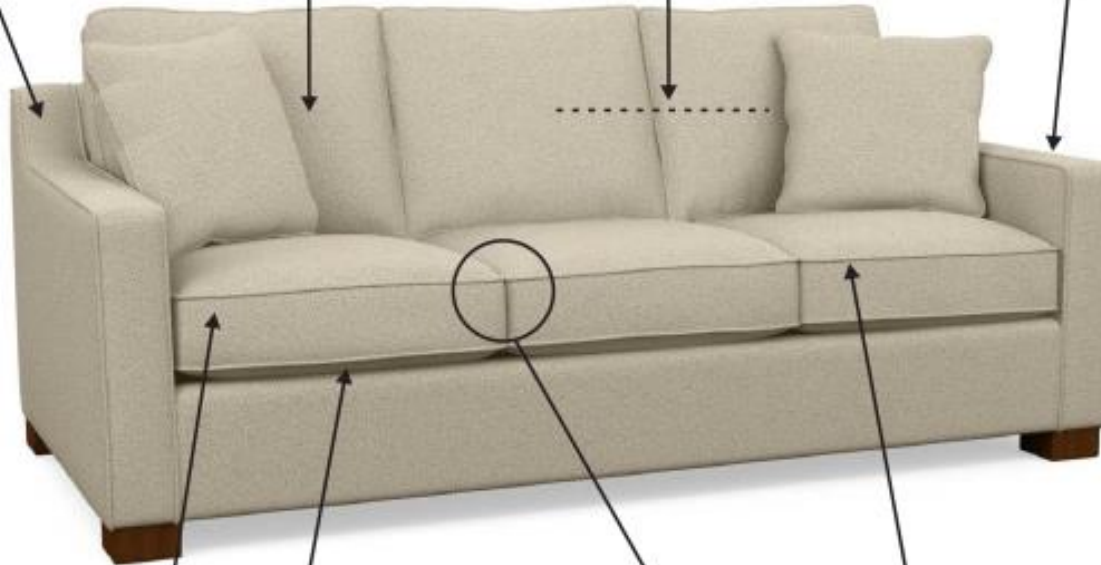

Fibre fill in back and toss cushions is hollow and twisted for added resiliency. A silicone coating reduces clumping.

**SEWN Baffles**

Horizontal baffles sewn into the back cushion inserts minimize shifting of fill materials.

**EXCEPTIONAL FINISHING**

Details such as piping, zippered back and seat cushions and pattern matching provide a better finished piece.

**HIGH DENSITY FOAM**

Dense foam ranging from 2.0 to 2.75 lbs provides long lasting comfort and support.

**SELF COVERED DECK**

Deck material matches the body fabric. No unsightly white decking material.

**CROWNED SEAT CUSHIONS**

Cushion cores are shaped to provide a crown that will last the life of the cushion.

**DACRON WRAPPED FOAM CORES**

Reduces fabric shifting and prevents friction wear from fabric to foam contact.

**SOLID WOOD FRAME**

Kiln dried to prevent warping. Plywood used for shaping is always backed with solid wood.

**EXTRA THICK WOOD**

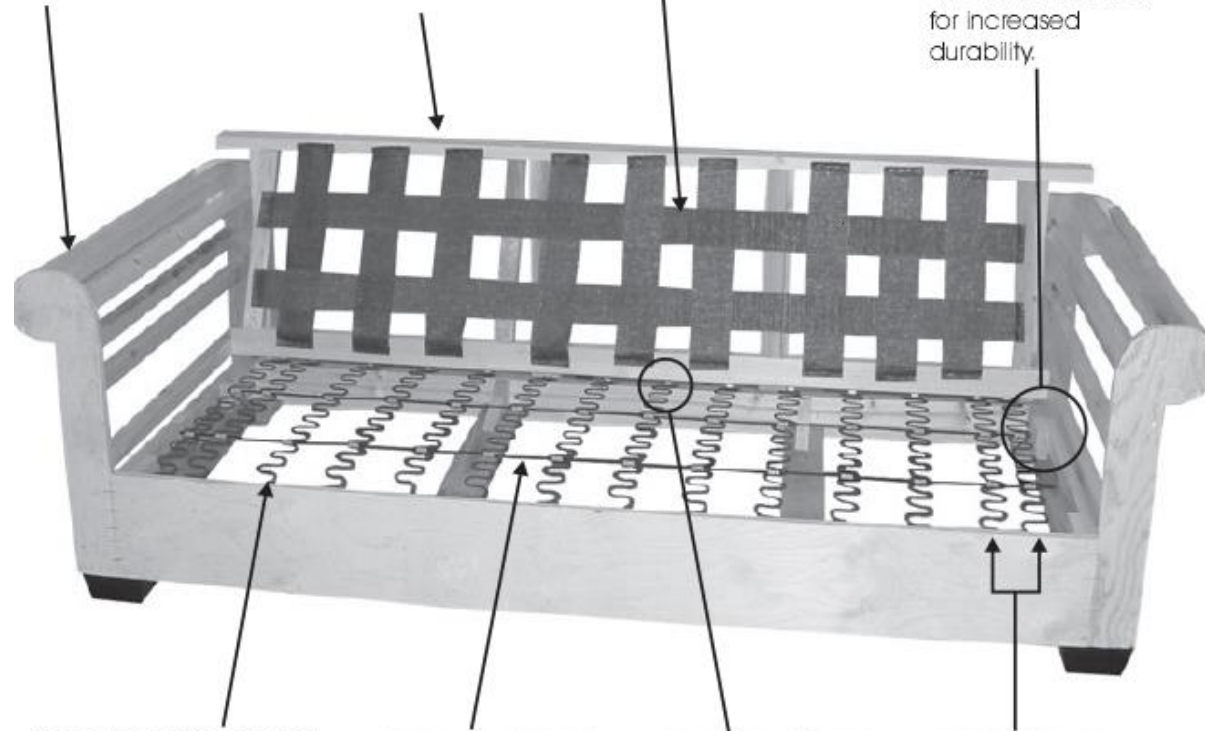

1 1/8" lumber is used for additional strength. Most furniture frames use only 3/4" wood.

**ELASTICISED WEBBING**

Provides support for back cushions and helps to prolong the back cushion's life.

**GLUED AND CORNER BLOCKED**

All joints are glued and stapled with 2" glue coated frame staples. Stress points are corner blocked for increased durability.

**NO SAG SPRING SYSTEM**

"S" shaped springs provide long lasting support and superior comfort. 8 gauge wire is used on seat springs and 11 gauge on sprung backs.

**LATERAL STABILIZERS**

Produce a more "up and down" ride by spreading the weight over multiple springs.

**EVERWARE COATED SPRING CLIPS**

Prevent squeaking caused by metal to metal contact.

**EXTRA CORNER SPRINGS**

Additional springs in the corners provide extra support and reduce roll into the corner.

**EXTRA THICK MATTRESS**  
5 1/2" thick memory foam mattress. All mattresses 72" long for extra sleeping surface.

**FOAM AND FIBRE PAD**  
Allergy free, mildew resistant, odour free, moth proof, 4-way stretch cover.

**RETAINER CLIPS**  
Two mattress retainer clips prevent the mattress from shifting.

**VANITY FLAP**  
Self covered mini-deck hides the mechanism when not in use.

**RECESSED CROSS BAR**  
Provides maximum comfort when laying down.

**COUNTERBALANCED MECHANISM**  
Allows for easy opening and closing.

**CONTRACT GRADE MECHANISM**  
One piece legs, all square tubular steel construction and solid core rivets provide additional strength and durability for high usage applications.

**100% POLYPROPYLENE DECK**  
Will not tear high pile carpet or mattress like a link spring deck can.

## Commercial Use Warranty Features

### **Frame ~ 5 Year Limited Warranty**

We warrant that the frames used in its products will carry a 5 year against defects in materials.

### **•Springs ~ 1 Year Limited Warranty**

We warrant that the springs used in its products will carry a 1 year warranty against defects in materials.

### **•Foam ~ 1 Year Limited Warranty**

The foam products used in seat and back cushions shall bear a 1 year warranty against excessive loss of resiliency. Note that all foam will soften initially and this is considered normal. Each customer should be aware of the proper care for seat cushions including rotating cushions weekly. Do not remove covers for cleaning.

### **•Mattresses & Mechanisms ~ 1 Year Limited Warranty**

We warrant that the mattresses and mechanisms used in its products will carry a 1 year warranty against defects in materials.

### **•Exposed Wood ~ 1 Year Limited Warranty**

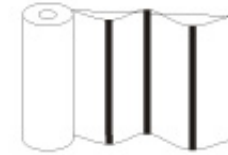

Exposed wood parts shall carry a 1 year limited warranty against material defects.

### **•Fabric ~ 1 Year Limited Warranty**

We warrant that the upholstery fabric on each piece of furniture shall bear a one year limited warranty against manufacturers defects. This warranty will cover excessive wear and seam slippage under normal usage. This warranty does not cover pilling, fading, shrinkage or soiling. This warranty does not apply to customers own material, end of line fabrics, close outs, seconds, or fabrics treated with after market fabric treatments.

## CUSTOMERS OWN MATERIAL (C.O.M.)

All Stylus cutting patterns are railroaded, thus fabrics are cut to railroad on the furniture. Fabrics which run up the roll will therefore be handcut. These fabrics will require more yardage and incur an additional charge. An example of each is shown to the right. Fifty-four inch wide fabrics not railroaded when applied to long cushions, or narrow fabrics not railroaded when applied to most cushions will require seaming. The factory will position these seams at its discretion. If special placement is desired, it must be stated on your orders and an additional cost will apply. Unless a customer gives special instructions with orders as to the application of fabric, our own judgement will be used in applying the fabric.

"Railroaded" fabric

"Up The Roll" fabric

For a Customer's Own Material (C.O.M.) with patterns please supply extra yardage as indicated below:

Fabric Width	Repeat 5-15"	Repeat 16-21"	Repeat 22-30"
54"	25%	30%	35%
48-53"	35%	40%	50%

This is strictly a guide only. There may be orders due to unusual designs or repeats of the fabric that will require additional yardage. This may not be known at the time of order, and may result in a production delay and the need for additional yardage. Our customer service department will contact you under these circumstances.

## CUSTOMIZATION

Stylus offers customization of many tailoring aspects available at an upcharge. These include:

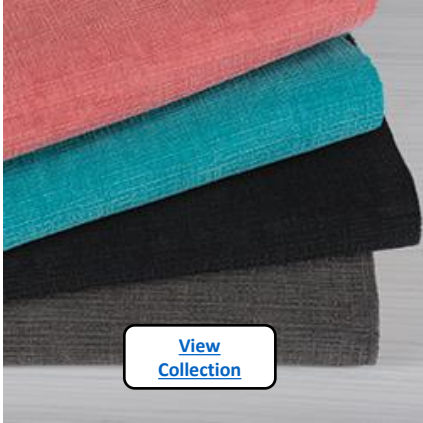

- ~ Adding or removing skirts
- ~ Two toned seat, backs or toss cushions
- ~ Adding fringe to cushions
- ~ Changing back cushion styles
- ~ Firm seat foam (no charge)
- ~ Contrast piping
- ~ Adding or removing piping
- ~ Attach back cushions

\*Customization not available on all styles. Please check with customer service for style availability
